Thank You :)

Thanks for purchasing our theme. We really appreciate your support and trust in us. We worked hard to make Anotte WP theme easy to edit as much as possible. Hopefully, you will enjoy using it.
Have fun!

How To Install?

Once you have the zip archive ready, you need to go to your dashboard, which is www.yourwebsite.com/wp-admin and go to **Appearance > Themes > Install Themes** and, in the top menu, select **Upload**. Now, select the zip archive and just install it normally.

*Note - Theme is placed in **“Anotte WP - THEME”** folder and you need to upload zip file from that folder (zip file called **anotte-wp.zip**)
Also, there is a Child theme available placed in same folder (zip file called **anotte-wp-child.zip**)

After installing the theme, you will get alert of required plugins **CocoBasic - Anotte WP** and **Contact Form 7**. You need to install and to activate it.

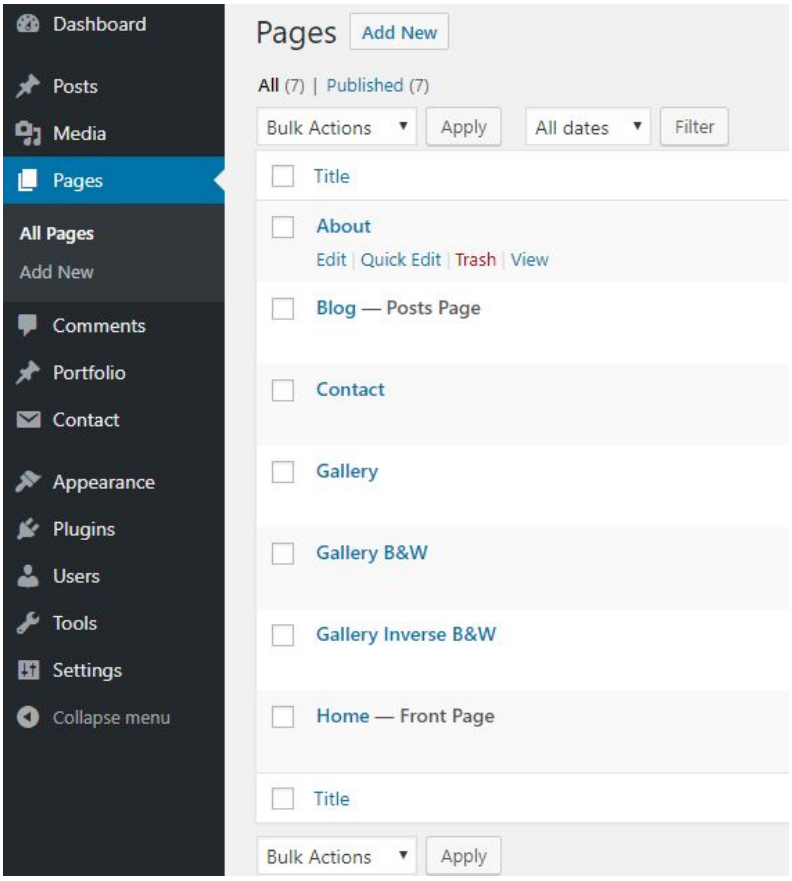
Content Editing

To edit Page, just open a page that you want to edit and replace the existing content with your own (text, images, videos).
After importing demo content, you will have pages like this:

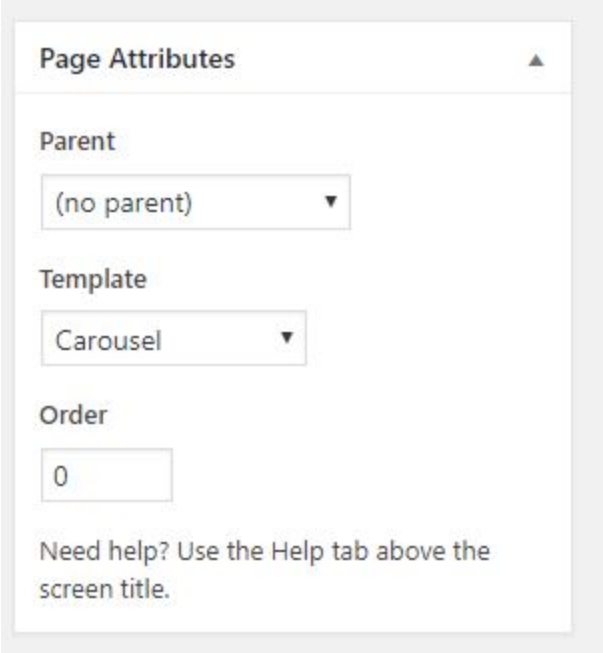
Now, for each page we will explain just some part of code which is specific for it:



Home (Carousel Set Up)

This is main page (it is set to be Front Page) and shows latest Portfolio Items in Carousel. There are 3 different ways (**Case 1**, **Case 2** and **Case 3**) how you can set up the Carousel and you will find instructions below.

Important for this page is to set:
Page Attributes > Template > Carousel



Case 1 - Latest Portfolio Item:

On this page you will find code like this:

```
[carousel_slider portfolio="true" show="5"]

[carousel_slide type="text" title="Art of the Camera" des="PHOTOGRAPHY"]
Courage of our questions ship of the imagination across the centuries, the only home we've ever known
descended from astronomers ship of the imagination intelligent beings.
[/carousel_slide]

[/carousel_slider]
```

In “translation” this code is - show latest 5 portfolio items (if there are more, add “Load More” on end) but before that, add one slide with custom text on start (“Art of the Camera”).

Important - “Load More” button is available just in this case when carousel is showing latest portfolio items.

Live demo:
http://demo.cocobasic.com/anotte-wp/

Case 2 - Custom Carousel:

There is a option to create a custom carousel, with custom images, links, titles (not to use latest Portfolio items) and code for that will look like this:

```
[carousel_slider]

[carousel_slide type="text" title="Photo Session" des="WORK DAY"]
But as I have said, a day came when I began to cease from noting the glories and the charms which the moon and the sun and the twilight wrought upon the river’s face another day.
[/carousel_slide]

[carousel_slide type="image" link="#"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2017/04/blog_img_04.jpg" title="Coffee time"]

[carousel_slide type="image" link="#"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2018/06/image_11.jpg" title="Good Day"]

[carousel_slide type="image" link="#"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2017/04/blog_img_02.jpg" title="Old Photo"]

[/carousel_slider]
```

Here we have 4 slides:

- 1st slide is a text “Photo Session”
- 2 - 4 are images slides

Live demo:
http://demo.cocobasic.com/anotte-wp/portfolio/the-dawn/

Case 3 - Carousel as Gallery:

There is a option to create a Carousel as Gallery (and also there is a option to create a Black&White and Inverse Black&White gallery).

```
[carousel_slider]

[carousel_slide type="text" title="Natural Look" des="PHOTO SESSSION"]

Courage of our questions ship of the imagination across the centuries, the only home we've ever known descended from astronomers ship of the imagination intelligent beings.

[/carousel_slide]

[carousel_slide type="gallery"]

[gallery_item title="Graphic Design"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2018/07/image_30.jpg"]

[gallery_item title="Love Addict"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2018/07/image_31.jpg"]

[gallery_item title="Plate Mockup"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2018/07/image_32.jpg"]

[gallery_item title="Above Clouds"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2018/07/image_38.jpg"]

[gallery_item title="My Perfume"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2018/07/image_39.jpg"]

[gallery_item title="Sneakers"
img="http://demo.cocobasic.com/anotte-wp/wp-content/uploads/2018/07/image_41.jpg"]

[/carousel_slide]

[/carousel_slider]
```

Live demo:
http://demo.cocobasic.com/anotte-wp/gallery/

For Black&White gallery, use the same code as above, just add class “**black-white**” on carousel item with type gallery.

```
[carousel_slide type="gallery" class="black-white"]
```

Live demo:
http://demo.cocobasic.com/anotte-wp/gallery-bw/

And for Inverse Black&White, the same logic, use the class “**inverse-black-white**”:

```
[carousel_slide type="gallery" class="inverse-black-white"]
```

Live demo:
