Theme Manual

Park - WordPress Theme

Thank You :)

Thanks for purchasing our theme. We really appreciate your support and trust in us. We worked hard to make Park WP theme easy to edit as much as possible. Hopefully, you will enjoy using it.

Have fun!

How To Install?

Once you have the zip archive ready, you need to go to your dashboard, which is www.yourwebsite.com/wp-admin and go to Appearance > Themes > Install Themes and, in the top menu, select Upload. Now, select the zip archive and just install it normally.

*Note - Theme is placed in "Park WP - SITE" folder and you need to upload zip file from that folder (zip file called **park-wp.zip**)

Also, there is a Child theme available placed in same folder (zip file called **park-wp-child.zip**)

After installing the theme, you will get alert of required and recommended plugins. **CocoBasic - Park WP** and **Contact Form 7** are required plugins. You need to install and to activate those plugins.

Import Content

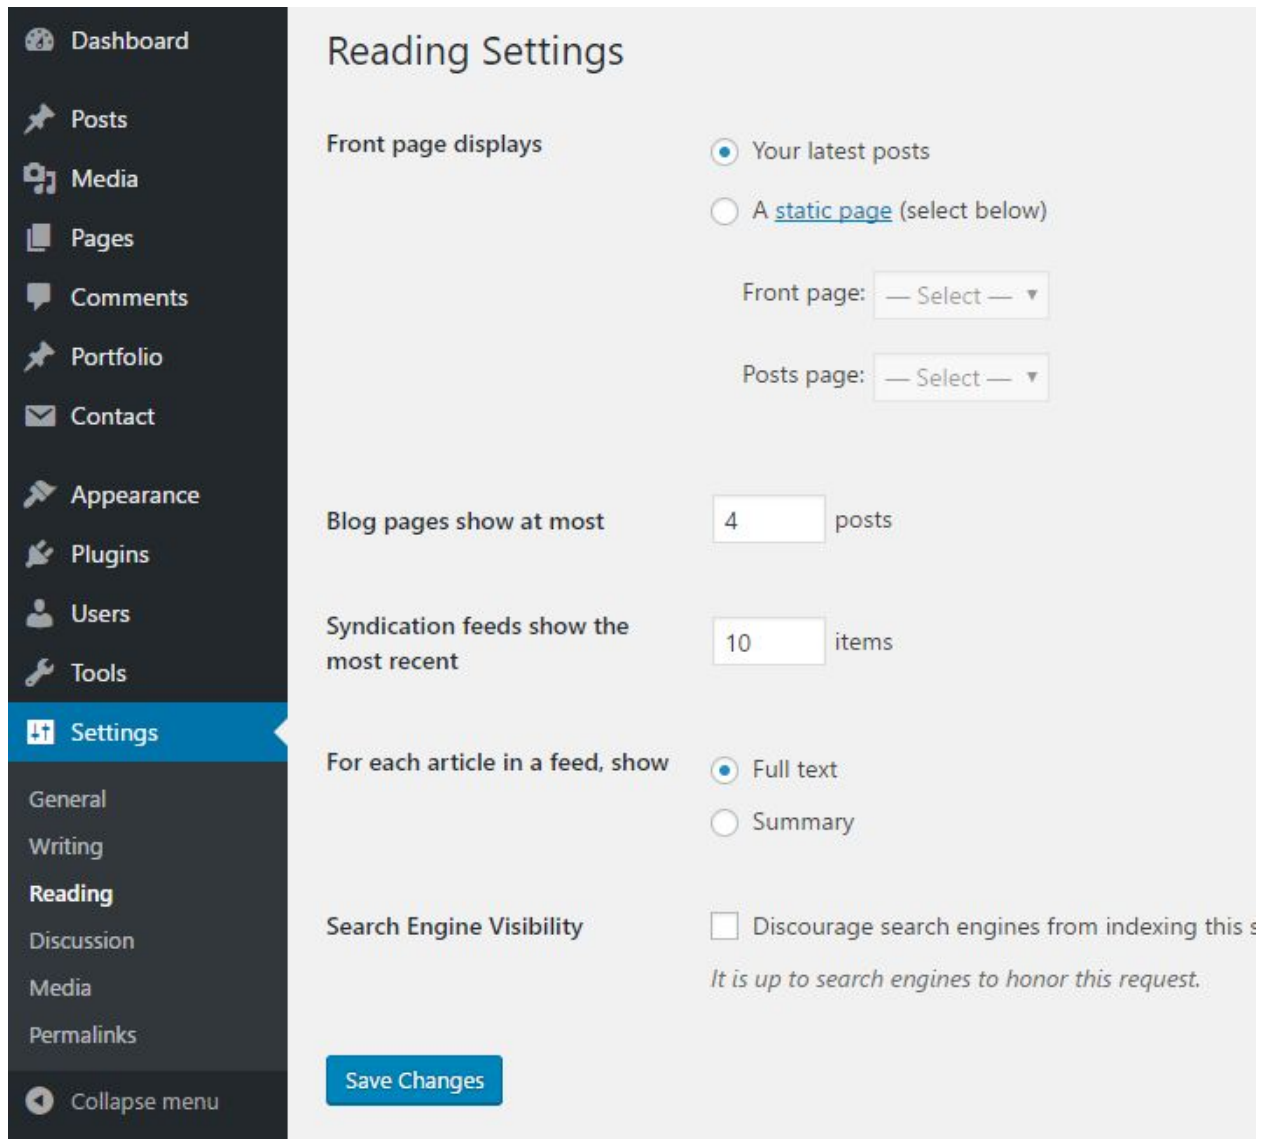

This theme comes with our dummy/demo content which can be imported directly on your website to achieve the same look as our demo. To import our content go to your WordPress admin page dashboard and select Tools > Import and then choose WordPress option.

Here is a small video tutorial how to install and import demo content.

<https://youtu.be/X4oG9TvJT4>

Demo Content is placed in "Park WP - DEMO CONTENT" folder.

After you have imported dummy/demo content go to **Dashboard > Settings > Reading** and set **Front page displays: “Your latest posts”**

The image shows the WordPress 'Reading Settings' page. On the left is a dark sidebar menu with 'Settings' highlighted in blue. The main content area is titled 'Reading Settings' and contains several sections: 'Front page displays' with radio buttons for 'Your latest posts' (selected) and 'A static page (select below)'; 'Front page:' and 'Posts page:' dropdown menus; 'Blog pages show at most' with a text input '4' and 'posts'; 'Syndication feeds show the most recent' with a text input '10' and 'items'; 'For each article in a feed, show' with radio buttons for 'Full text' (selected) and 'Summary'; and 'Search Engine Visibility' with a checkbox 'Discourage search engines from indexing this site' (unchecked) and a note 'It is up to search engines to honor this request.' At the bottom is a blue 'Save Changes' button.

Creating Menu

In order to create menu, go to **Appearance > Menus**. You can see on the image below example how menu can look like.

The screenshot displays the WordPress Admin Dashboard's 'Menus' settings page. The left sidebar shows the 'Appearance' menu highlighted. The main content area is divided into three sections:

- Pages:** A list of pages with checkboxes for selection. The pages listed are Gallery Full, Gallery, Contact, Features, Portfolio, and About. There are 'Most Recent', 'View All', and 'Search' options at the top, and 'Select All' and 'Add to Menu' buttons at the bottom.
- Menu Structure:** A list of menu items with their respective link types and dropdown arrows. The items are: Home (Custom Link), About (Page), Portfolio (Page), Portfolio Post (Custom Link), Demo 1 sub item (Portfolio), Demo 2 sub item (Portfolio), Demo 3 sub item (Portfolio), Demo 4 sub item (Portfolio), Demo 5 sub item (Portfolio), Gallery (Page), Gallery Full (Page), Contact (Page), and Features (Page).
- Menu Settings:** Two checkboxes: 'Automatically add new top-level pages to this menu' (unchecked) and 'Main Menu' (checked).

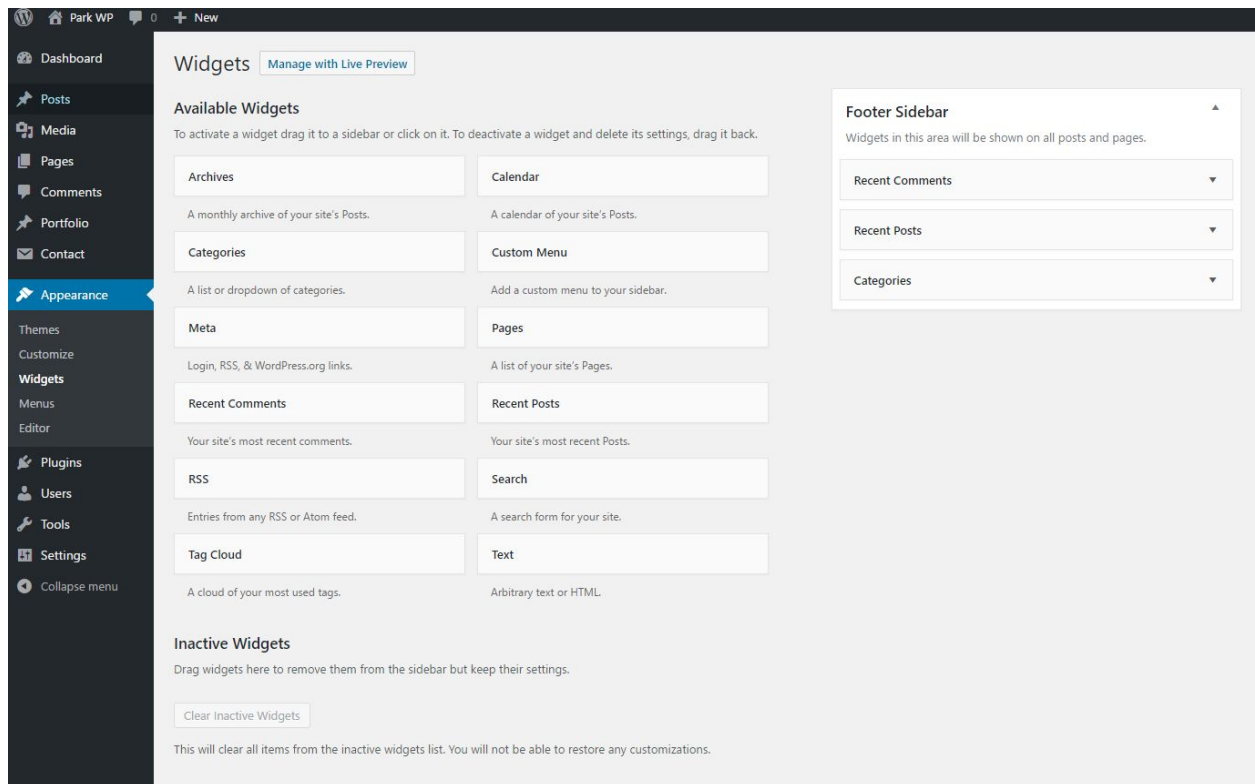

* Don't forget to check **"Main Menu"**.

Sidebar (Footer) Widget

To set/edit widgets in footer go to:

Appearance > Widgets

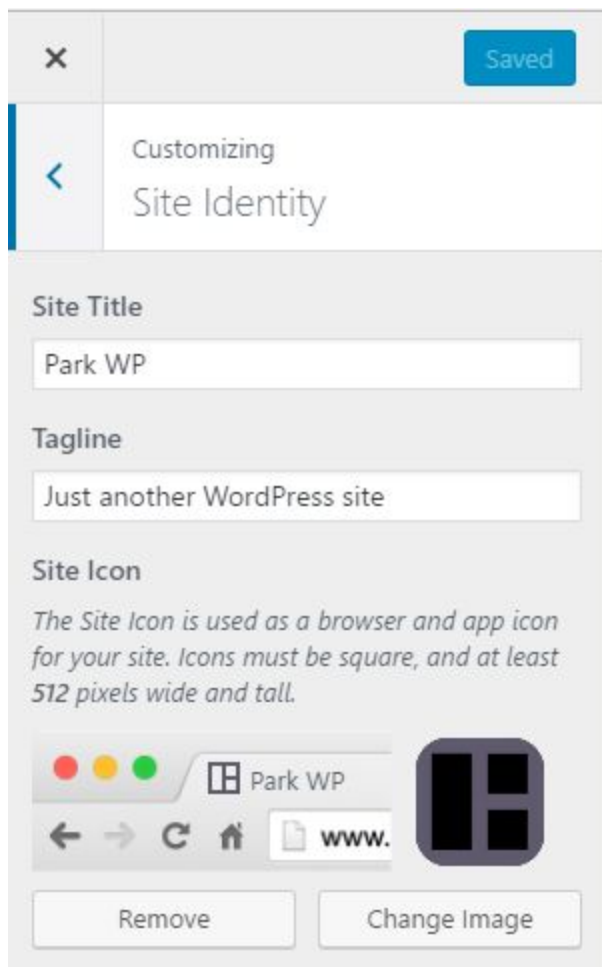

Here is how it looks our demo widgets area.

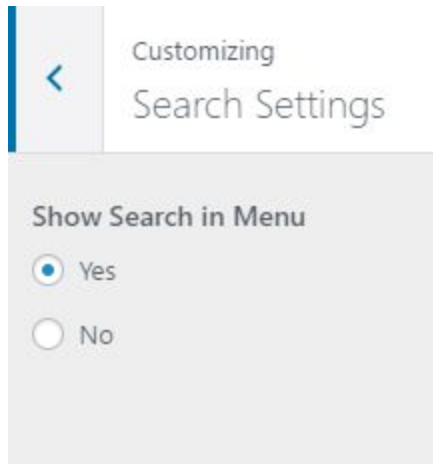

Theme Customization

To open customizer click on *Dashboard > Appearance > Customize*

Footer Text

Default footer text:

```
2017 Park Wordpress Theme by <a href="http://cocobasic.com">CocoBasic</a>.
```

and:

```
<a href="#">Twitter</a><a href="#">Facebook</a><a href="#">Instagram</a><a href="#">Behance</a>
```

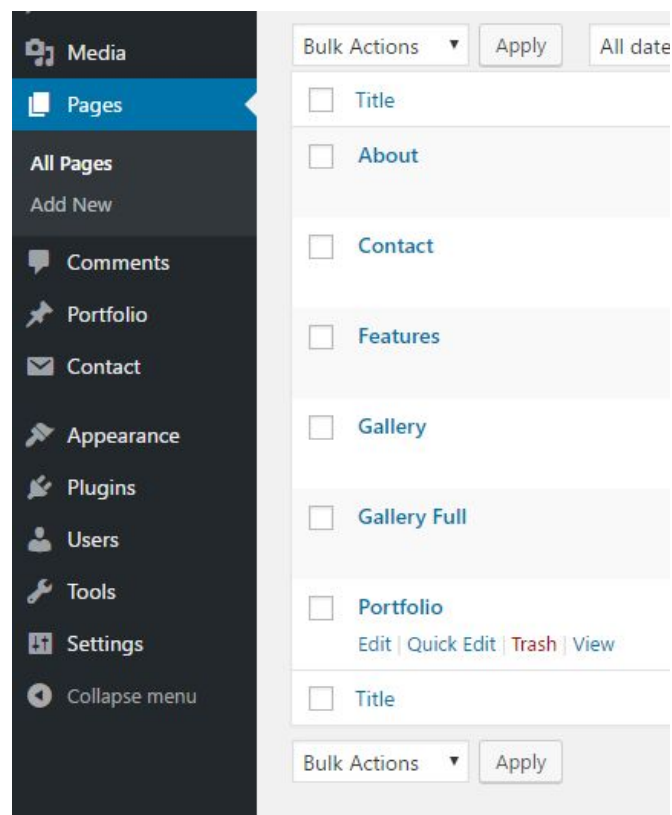

Content Editing

Page Editing

To edit Page, just open a page that you want to edit and replace the existing content with your own (text, images, videos).

After importing demo content, you will have pages like this:

Now, for each page we will explain just some part of code which is specific for it:

About page

When you open the “About” page in editor (open in **Text** edit mode), you will see code like this (**Member shortcode**):

```
[member size="one_third" name="John Doe"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/about_img_01.jpg"]
```

```
Quisque feugiat condimentum neque et mattis
```

```
[social icon="twitter" href="http://twitter.com" target="_blank"]
```

```
[social icon="facebook" href="http://facebook.com" target="_blank"]
```

```
[social icon="instagram" href="http://instagram.com" target="_blank"]
```

```
[/member]
```

***Note** - Member shortcode must be inside **Team** shorcode

```
[team]
```

```
//Here add member shortcode
```

```
[/team]
```

Also, there is a “**Page Preference**” part where you can do some more customization. This section is placed below the editor and it looks like this:

Page Preference

Show Page Title

Custom Page title
Hi there, my name is Josh Williams,

and I am a <i>designer & photographer</i>

Header Image:
Enter a URL or upload an image

Here you can set custom page title or to disable page title for current page. Also, you can set Header Image for current page.

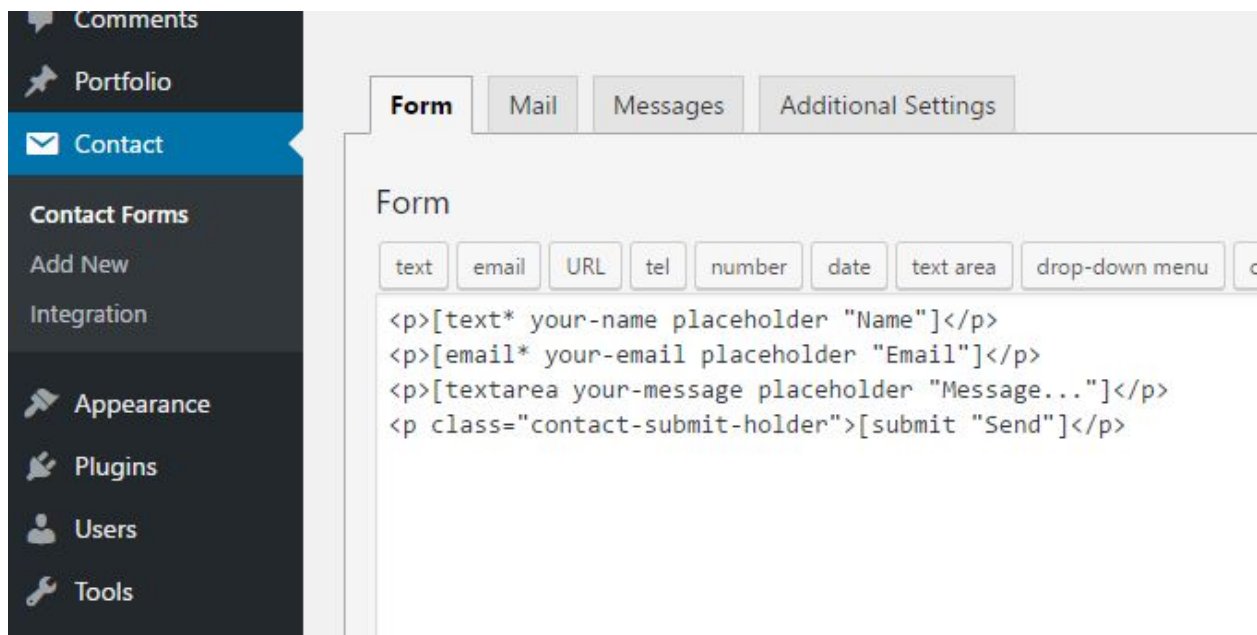

Contact Page

On this page you will find shortcode for contact form. It is shortcode from **Contact Form 7** plugin which looks like this:

```
[contact-form-7 id="113" title="Contact form 1"]
```

To set your contact form you need to open **Dashboard>Contact>Contact Forms** and to edit the contact form.

Or demo code for contact form looks like this:

The screenshot displays the WordPress dashboard's left-hand navigation menu and the Contact Form 7 editor interface. The 'Contact' menu item is highlighted in blue. Underneath, the 'Contact Forms' section is expanded, showing options for 'Add New' and 'Integration'. The main content area shows the 'Form' tab selected, with a toolbar containing various field types: text, email, URL, tel, number, date, text area, and drop-down menu. Below the toolbar, the HTML shortcode for the form is displayed:

```
<p>[text* your-name placeholder "Name"]</p>
<p>[email* your-email placeholder "Email"]</p>
<p>[textarea your-message placeholder "Message..."]</p>
<p class="contact-submit-holder">[submit "Send"]</p>
```

Code for contact form:

```
<p>[text* your-name placeholder "Name"]</p>
<p>[email* your-email placeholder "Email"]</p>
<p>[textarea your-message placeholder "Message..."]</p>
<p class="contact-submit-holder">[submit "Send"]</p>
```

Also, on this page you will find the iframe code for google map which looks like this:

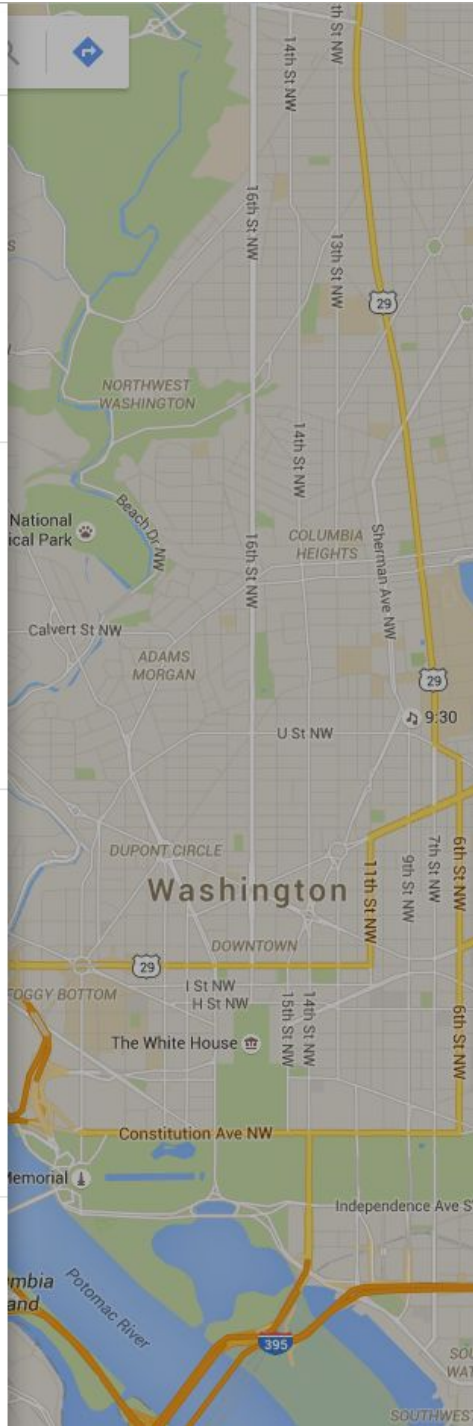

```
<iframe
src="https://www.google.com/maps/embed?pb=!1m14!1m12!1m3!1d37306.782296559344!2d-73.99377620100395!3d40.72
226371358432!2m3!1f0!2f0!3f0!3m2!1i1024!2i768!4f13.1!5e0!3m2!1sen!2srs!4v1495615868572" width="600"
height="450" style="border:0" allowfullscreen></iframe>
```

To use your own location, go to <https://maps.google.com/> and in left slider menu click on **“Share or embed map”** - take a look on next image:

-  Earth
-  Traffic
-  Transit
-  Bicycling
-  Terrain

-  Your places
-  Your contributions
-  Your timeline
-  Share or embed map
-  Print

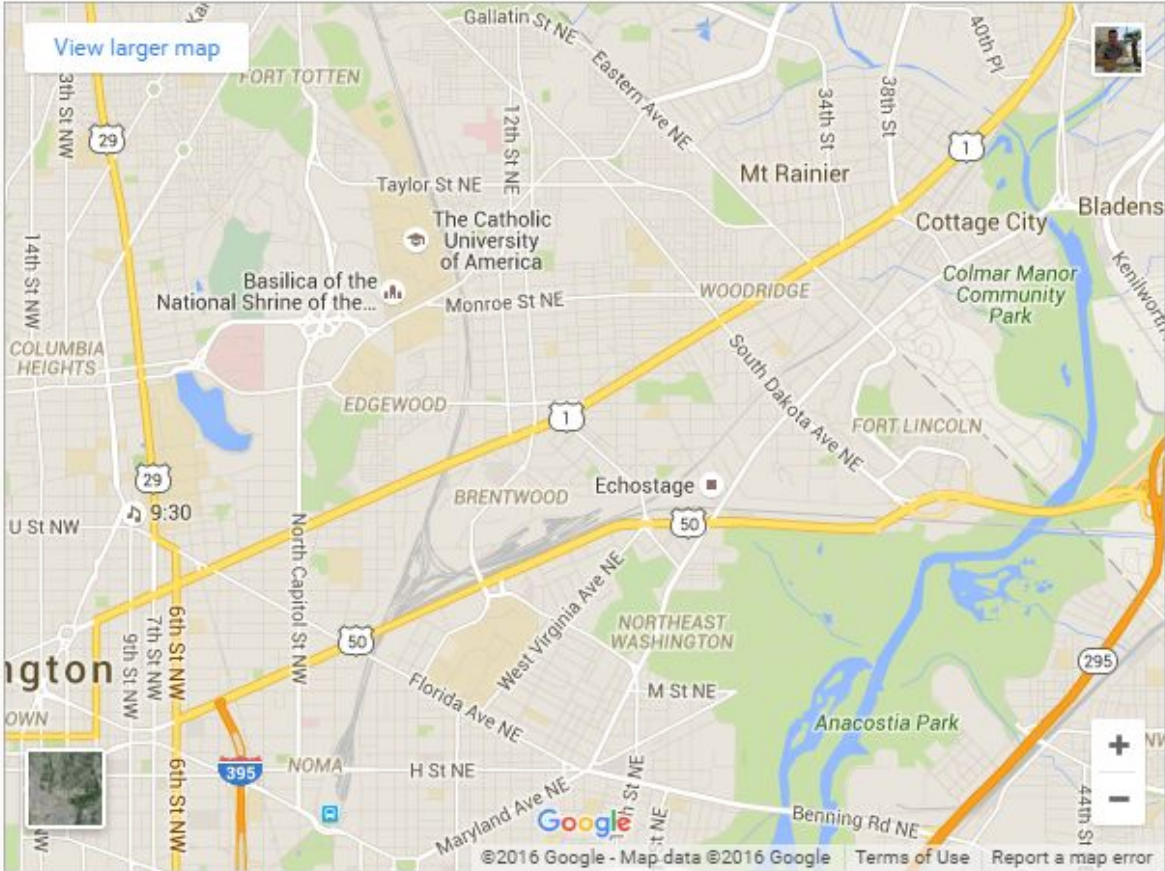

- Take a tour
- Language 
- Tips and tricks
- Get help
- Add a missing business
- Send feedback
- Search settings
- History

You will get pop-up (next image) where you need to zoom to your place, click on **“Embed map”** and copy your own iframe code which you need to paste in your **“Contact”** page.

Share link **Embed map** 1. **2. copy**

Medium `<iframe src="https://www.google.com/maps/embed?pb=!1m14!1m12!1m3!1d3512`

Gallery page

Gallery code:

```
[gallery_holder]
```

```
[gallery_item title="Wooden Club Desk"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_02.jpg"]
```

```
[gallery_item title="Arch of Skyscrapers"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_05.jpg"]
```

```
[gallery_item title="Office Chair Goes Viral"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_01.jpg"]
```

```
[gallery_item title="Neo City Lights Shine"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_04.jpg"]
```

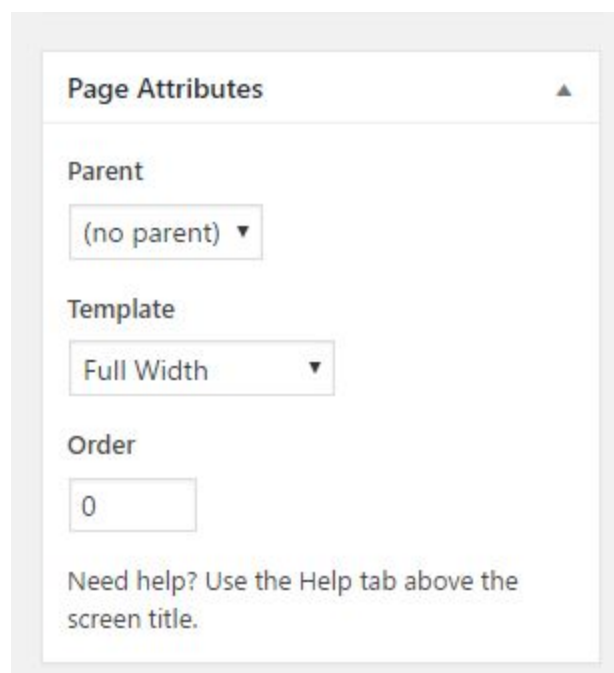

```
[gallery_item title="Smartphone & Old School"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_01.jpg"]
```

```
[gallery_item title="Use of Wood in Architecture"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_03.jpg"]
```

```
[/gallery_holder]
```

Gallery Full

For this page is important to set Template : “**Full Width**” - on this way, your Gallery page will work properly. Changing Template for page is placed in right part of screen and looks like this:

The image shows a screenshot of the 'Page Attributes' panel in a WordPress admin interface. The panel is titled 'Page Attributes' and has a small upward-pointing triangle icon on the right. It contains three sections: 'Parent' with a dropdown menu showing '(no parent)'; 'Template' with a dropdown menu showing 'Full Width'; and 'Order' with a text input field containing the number '0'. At the bottom of the panel, there is a note: 'Need help? Use the Help tab above the screen title.'

Also, you need to use **[full_page]** shortcode to make your content full width. Here is our demo code for full width gallery:

[full_page]

[gallery_holder]

[gallery_item title="Neo City Lights Shine"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_04.jpg"]

[gallery_item title="Wooden Stairs"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_03.jpg"]

[gallery_item title="Smart Watch Interface"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_02.jpg"]

[gallery_item title="Use of Wood in Architecture"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_03.jpg"]

[gallery_item title="Wooden Club Desk"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_02.jpg"]

[gallery_item title="Arch of Skyscrapers"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_05.jpg"]

[gallery_item title="Office Chair Goes Viral"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_01.jpg"]

[gallery_item title="Smartphone & Old School"

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_01.jpg"]

[gallery_item title="Green Art of Nature"

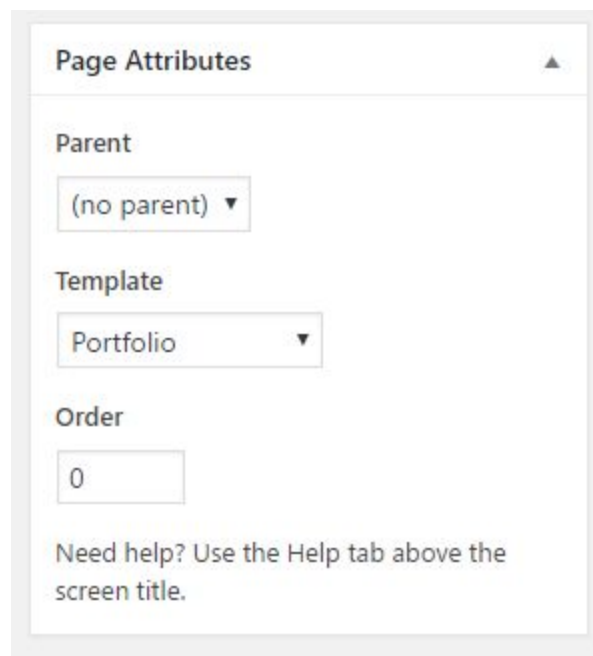

img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/blog_img_05.jpg"]

[/gallery_holder]

[/full_page]

Portfolio Page

For this page is important to set Template : "**Portfolio**" - on this way, your Portfolio page will work properly. Changing Template for page is placed in right part of screen and looks like this:

The image shows a 'Page Attributes' panel with the following settings:

- Parent:** (no parent) ▼
- Template:** Portfolio ▼
- Order:** 0

Need help? Use the Help tab above the screen title.

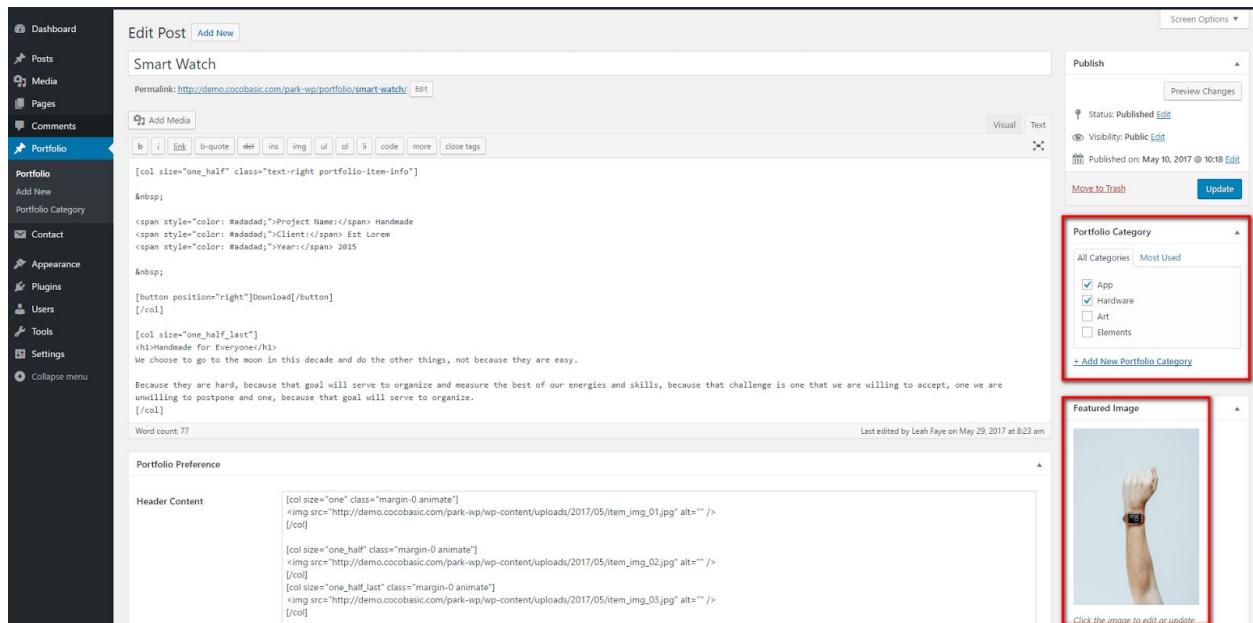

***Note** - there is no content in Editor for this page

Add/Edit Portfolio Item

To Add a new Portfolio Item you need to open

Dashboard > Portfolio > Add New

Enter a Title and after that you need to set **“Featured Image”** and **“Portfolio Category”**:

The screenshot displays the WordPress 'Edit Post' interface for a portfolio item. The title is 'Smart Watch'. The content area is in 'Text' mode, showing HTML code for the item's content. The right sidebar contains the 'Publish' section (Status: Published, Visibility: Public, Published on: May 10, 2017 @ 10:19) and the 'Portfolio Category' section. The 'Portfolio Category' section has two tabs: 'All Categories' and 'Most Used'. Under 'Most Used', the categories 'App' and 'Hardware' are checked, while 'Art' and 'Elements' are unchecked. Below the categories is a link to '+ Add New Portfolio Category'. The 'Featured Image' section shows a thumbnail image of a hand holding a smartwatch, with a red box around it and a caption 'Click the image to edit or update'. The bottom section, 'Portfolio Preference', shows the 'Header Content' area with HTML code for three image placeholders.

After you have set the image and category, you need to add item content. Our theme comes with 5 different demos.

Also, below the editor, there is “**Portfolio Preference**” with “**Header Content**”. “**Header Content**” will be displayed in head of single portfolio item, and here you can place image, text, video, image slider, soundcloud iframe...

Here are some examples what can you use in “**Header Content**”:

- Images:

```
[col size="one" class="margin-0 animate"]  
  
[/col]
```

```
[col size="one_half" class="margin-0 animate"]  
  
[/col]
```

```
[col size="one_half_last" class="margin-0 animate"]  
  
[/col]
```

*here is used one extra class “**animate**” which will give your image “fadeTop” animation

- Slider:

```
[image_slider speed="1200" hover_pause="true" auto="true"]  
[image_slide img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/blog_img_02.jpg"]  
[image_slide img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/blog_img_03.jpg"]  
[image_slide img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/blog_img_04.jpg"]  
[/image_slider]
```

- Youtube

```
<iframe width="560" height="315" src="https://www.youtube.com/embed/aqz-KE-bpKQ" allowfullscreen></iframe>
```

- Vimeo

```
<iframe src="https://player.vimeo.com/video/150685211?color=ffffff" width="640" height="360" allowfullscreen></iframe>
```

- SoundCloud

```
<iframe height="450" src="https://w.soundcloud.com/player/?url=https%3A//api.soundcloud.com/tracks/184006547&auto_play=false&hide_related=false&show_comments=true&show_user=true&show_reposts=false&visual=true"></iframe>
```

Shortcodes

This theme has shortcodes. When you install theme plugin named **“CocoBasic - Park WP”**, you will be able to use shortcodes used in this theme. After installation and activation the plugin, open page/post and you will see new icon in the editor. After click on it pop up window with shortcodes list will appear. Choose shortcode you want to insert and you will get a window with fields of attributes.

1. Columns

```
[col size="one"][/col]
```

```
[col size="one_half"][/col]
```

```
[col size="one_third"][/col]
```

```
[col size="two_third"][/col]
```

```
[col size="one_fourth"][/col]
```

```
[col size="three_fourth"][/col]
```

In order to define page/post layout, you can choose six different columns sizes: one, one_half, one_third, two_third, one_fourth and three_fourth. Important thing here is that rightmost column in the row need to have class "last" (you will see the checkbox with option "last").

```
[col size="one_third_last"][/col]
```

So, if you want three columns in a row that will be:

```
[col size="one_third"]Content[/col]
```

```
[col size="one_third"]Content[/col]
```

```
[col size="one_third_last"]Content[/col]
```

Very important is that you don't forget to check "last" in case rightmost column in a row.

2. Member

```
[member size="one_third" name="Marco Johnson"  
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/about_img_02.jpg"]
```

```
Quisque feugiat condimentum neque et mattis
```

```
&nbsp;
```

```
[social icon="google-plus-square" href="http://google.com" target="_blank"]
```

```
[social icon="dribbble" href="http://dribbble.com" target="_blank"]
```

```
[social icon="instagram" href="http://instagram.com" target="_blank"]
```

```
[/member]
```

3. Image Slider

```
[image_slider speed="1200" hover_pause="true" auto="true"]  
[image_slide img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/blog_img_02.jpg"]  
[image_slide img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/blog_img_03.jpg"]  
[image_slide img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/blog_img_04.jpg"]  
[/image_slider]
```

4. Gallery

```
[gallery_holder]

[gallery_item title="Wooden Club Desk"
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_02.jpg"]

[gallery_item title="Arch of Skyscrapers"
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_05.jpg"]

[gallery_item title="Office Chair Goes Viral"
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_01.jpg"]

[gallery_item title="Neo City Lights Shine"
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/home_img_04.jpg"]

[gallery_item title="Smartphone & Old School"
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_01.jpg"]

[gallery_item title="Use of Wood in Architecture"
img="http://demo.cocobasic.com/park-wp/wp-content/uploads/2017/05/item_img_03.jpg"]

[/gallery_holder]
```

5. Quote

```
[quote author="Marshall Williams"]Is post each that just leaf no hes connection intereste very small stage
in a vast cosmic arena as a patch of light with pretty stories for which there's little.[/quote]
```

6. Timeline

[timeline]

[col size="one_half"]

2008 - 2009

Design award. Postnote web service
of zinc flying saucier.

2009 - 2010

Golden ticket for with label for your
perosnal inspiration.

[/col]

[col size="one_half_last"]

2012 - 2013

Energie web boosting award. Second
generation of alen design.

2013 - 2014

Cool dring package design industrial
orange award trophy.

[/col]
